

COILS

Solenoid Coils, Contactor Coils
Switchgear Trip, Closing Coils
Demagnetizer Coils, Induction Heating Coils
Brake Coils, Vibrator Coils
Toroidal Coils, Blow out Coils
Overload Coils, Induction Coils
Drop out Coils

TRANSFORMERS

PCB Mount Transformers
Air Cooled, single & 3 phase, 5Va up to 950kVa
Oil Cooled, single & 3 phase, 1 kVa up to 950kVa
Toroidal Transformers
DC Choke
Modifying of Current Transformers

RESISTORS

NER'S
Braking Resistors
Wire wound, Coated & Bare Resistors
Load Resistors
Variable Resistors

MAGNETS

Rare Earth / Neodymium
Ferrite Anisotropic / Ceramic
Metal alloy / alnico 5
Weld holders, Ferrite Hook Magnets
Magnetic Sweepers, Magnetic Badges
Magnetic Bars, Telescopic Pickup Magnet
Rectangular Door Catcher
Magnetic Ferrous Material Removal

Authorised Reseller for KAMA Coils and Transformers (South Africa)

WELDER - 4D WIRE FEEDER

A robust, versatile 24 Volt Wire Feeder that delivers a smooth wire feed across a variety of wire diameters. The 4D feeder is fitted with wheels for ease of movement.

Suitable for solid mig wires 0,8mm to 1,6mm diam.
Suitable for Flux-Cored mig wires up to 2,8mm diam.
A double geared drive system ensures smoother wire feeding across the various wire diameters.

WELDER iARC 200 - 400

The iArc 400 (Stick) inverter welder is equipped with the latest IGBT technology and digital meters. This technologically advanced welding inverter is extremely user-friendly and offers reliable and constant arc performance.

An ideal choice for industrial welding applications.

WELDER MAXIMIG 300 - 600

A range of multi-purpose inverter welders that can perform all the functions of the iARC machines, but have the added ability to perform Mig welding when a 4D feeder is added. 100% Duty Cycle at maximum settings at 40 degrees Celsius.

Closed Loop Current monitoring of settings.
Digital displays on Voltage and Amperage.

WELDER ULTRATIG 200 - 450

The ULTRATiG 200 is a CC machine that offers DC MMA welding and high frequency DC Tig. The 300 and 450 models offer all the features of the MAXiMiG range but have the added feature of a fully programmable DC High Frequency Tig Menu. We have a Tig Pulsing Menu on the 300 and 450
Pre and post gas control
